

SCHOOL BASED WELLNESS CENTER

A Washington County Community Partnership

Healthy Students Achieve

Dear Parent:

We are currently offering enrollment in our School Based Wellness Center. We are a health clinic within the school that works in collaboration with your child's doctor. We differ from the regular school health program in that we provide extended services for your convenience. Our services include but are not limited to:

- Evaluation and treatment of acute illness and injury
- Health assessments
- On-site mental health counseling/mental health referrals
- Weight management/counseling
- Preventative health services and health education

To enroll, you must fill out the enclosed health forms in their entirety. Depending on your School's Wellness Center, dental services may also be provided. Once you have completed the forms simply return them to the school's health office. (You will not have to re-enroll each year. You only need to give us updated phone numbers, medical and insurance related materials annually.)

If your child does not have a doctor, we will assist you in obtaining one. If your child does not have health insurance, we can also assist you in applying for the Maryland Children's Health Program. We will be happy to talk to you about our services and answer any questions that you or your child may have. Please call 301-766-8407 and ask for the Wellness Center Staff.

Sincerely,

Terry James, R.N.
Wellness Center Coordinator
